

Machine d'assemblage
Soudage par résistance
Soudo brasage - Ultrasons - Induction

POSITION MEASURING DEVICE

Example of position measuring device and TB 18 welding head

- Incremental linear optical measuring unit
- Length of measuring : 70 mm
- Measuring remain indifferent to magnetic fields
- Usable for all our welding heads

CONTROLLER WITH DISPLAY

- Controller with digital display unit
- Setting up of two measuring levels in comparison to zero
- Power supply 220 Volts

CIM CONTROLLING

Integrated counter card in the CIM electronic device for :

- Setting up levels and reference values
- Resetting of count values
